Bottom Line

Purdue continues to have strong systems and processes in place to prevent and detect violations of law, regulations and company policies, and to remediate issues before they become significant problems.

There have been no significant compliance issues in the 4th quarter, or in Full Year 2014

We have been focused on Hysingla ER launch preparations, and will be monitoring promotion activities

Most Important Investigation of 2014

- A Sales Representative contacted Compliance about a Regional Manager who might be directing an inappropriate promotion message comparing OxyContin to IR oxycodone based on “half-life.”
- Investigation determined there was significant messaging in call notes from only the East Central Region, with numerous interviews of East Central personnel, and lengthy investigation throughout 4th quarter
- Remediation included:
 - Meeting of entire Regional Management Team together with Sales Management, Corporate Compliance, Law, and Medical Services to address appropriate messaging
 - Bulletin to the field and written guidance provided to all sales managers regarding appropriate messaging
 - Disciplinary Action – Termination of RD, Warning Letter to one DM, coaching to multiple sales representatives
- Nevertheless, this matter is not significant such that we would reasonably expect government action
